

Air Management Sensor Locations EPA-10 MX-13 Engine

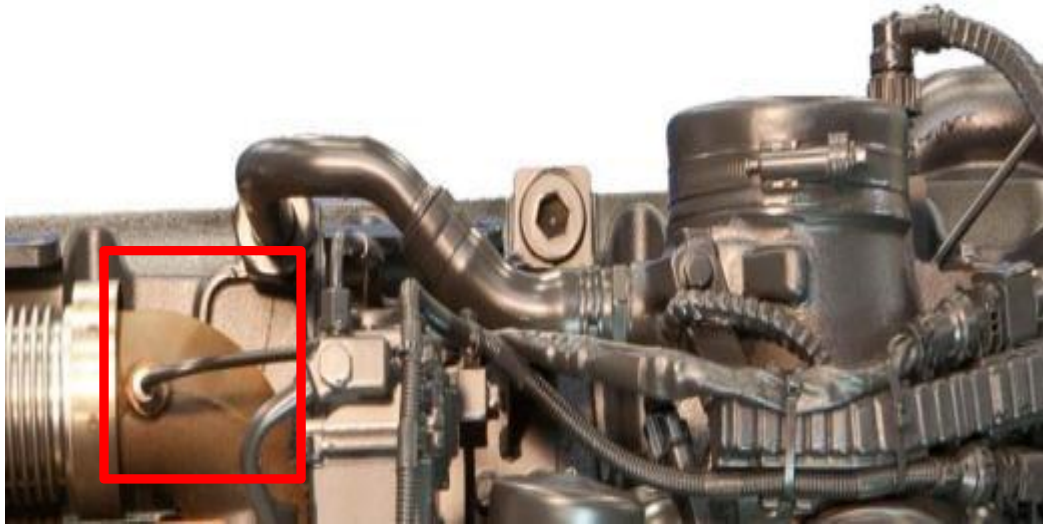

This article is used with the air management checks by the Engine Support Center to show the location of the sensors for them to be removed and inspected.

See the illustrations below for detailed locations of EGR/Air management sensors.

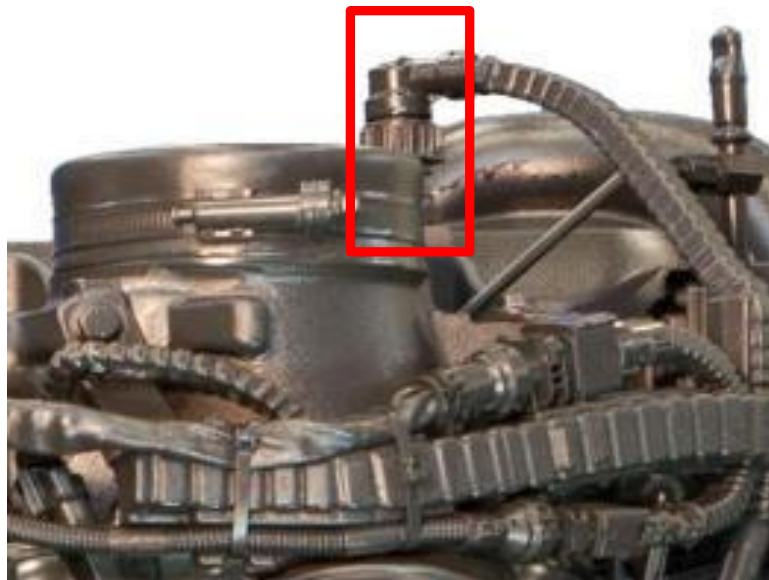

Before Turbine Pressure Pipe
Detail A

Before Turbine Pressure sensor
Detail B

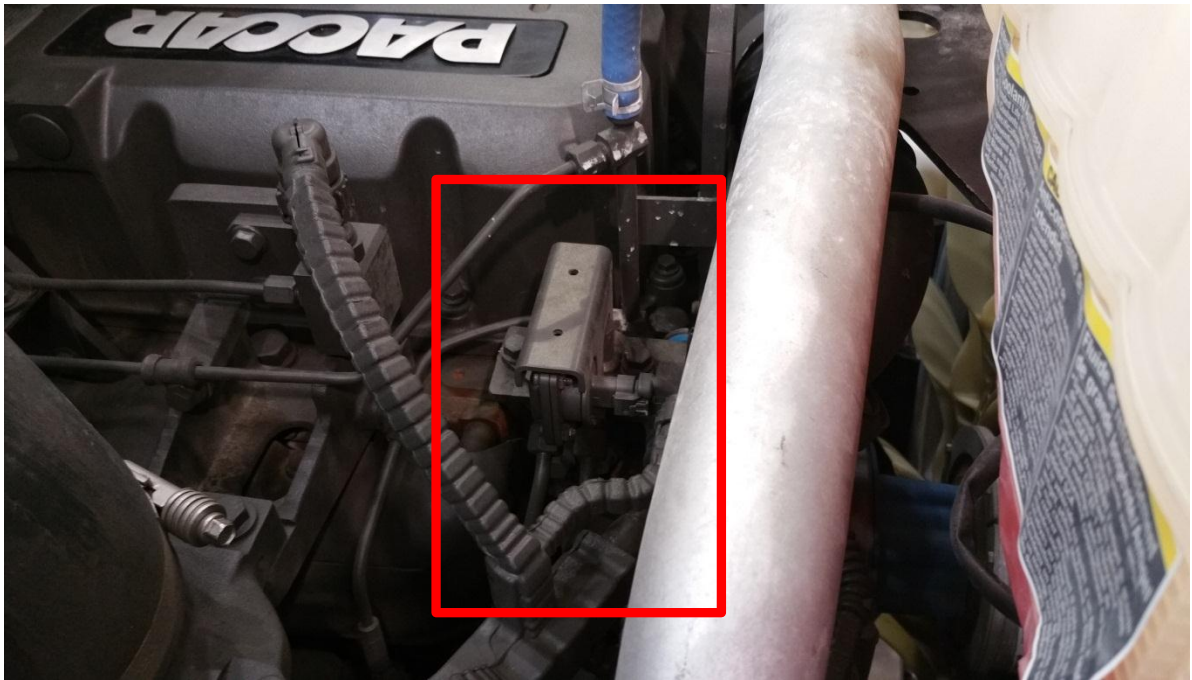

After BPV Pressure Sensor
Detail C

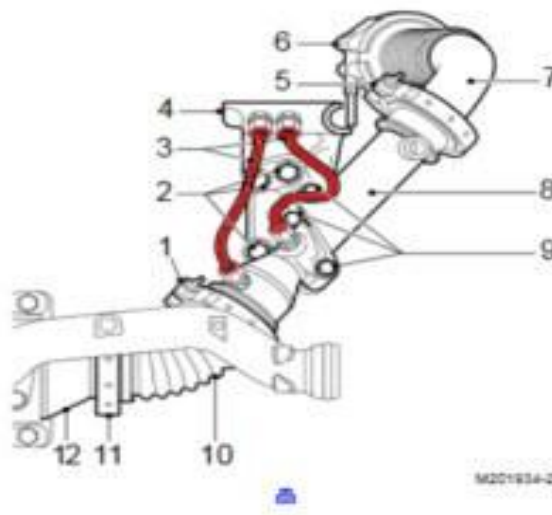

After BPV Pressure Pipe
Detail D

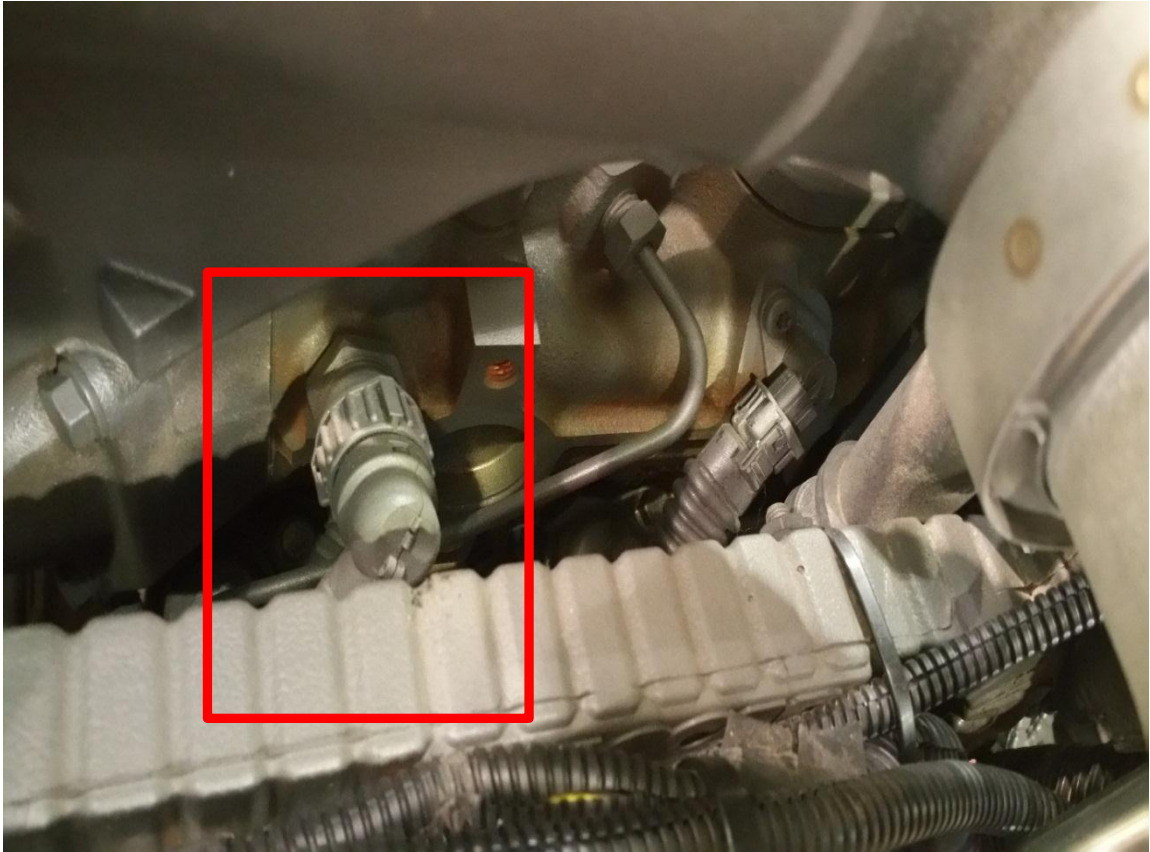

EGR Delta Pressure Sensor Detail E

EGR Delta Pressure Tubes Detail F

Boost Pressure Sensor
Detail G

Inlet Air Temp Sensor
Detail H

Post CAC Air Temp Sensor

Detail I
